

# Pentaho End User Training Rollout Pack

## The Starting Point for your Pentaho Training Rollout

To achieve a return on investment in Pentaho, end users need proper training on Pentaho Business Analytics.

Pentaho offers a time-saving End User Training Rollout Pack to save countless hours of effort by:

- Reducing ramp-up time with a comprehensive starting point for the training development and delivery efforts
- Equipping instructors to successfully teach end users Pentaho's Business Analytics User Console
- Accelerating the productivity of end users by utilizing proven training materials

## Why Purchase the Pentaho End User Training Rollout Pack?

Training departments typically are required to balance growing demands with fewer resources. Instead of spending time creating training content from scratch, Pentaho's End User Training Rollout Pack serves as a starting point.

With the Rollout Pack, the training department can focus on crucial tasks such as:

- Customizing the training exercises to the company's specific use case
- Managing and optimizing the training project
- Delivering a high quality training experience for end users

## End User Training Rollout Pack Content

The course content includes relevant information needed for a training department to train end users including:

Using & Creating Interactive Reports

Using Analyzer & Creating Visualizations

Using & Creating Dashboards

Guiding the correct choice of Data Visualization

Accessing source files for all conceptual explanations, guided demos, and lab exercises in an easy to customize Microsoft Word® format

## Duration, Price and Format

- Eight (8) hours of User Console training materials including a customizable, comprehensive Student Guide
- One (1) day Train the Trainer to equip training team to successfully deliver training to Pentaho users
- From \$9,000USD / €7000 / £6300 + travel expenses of the instructor
- 10 Attendees (may add additional at extra charge)

## Who Should Participate?

The entire training department (up to 10 people) should consider attending the Train the Trainer. Anyone responsible for enabling Pentaho end users will benefit from participating, including:

- Instructional Designers
- Training Content Developers
- Instructors
- Training Managers
